ONLINE MCQ TEST

Subject Teachers of classes X and XII are hereby informed to prepare an MCQ test paper for the online MCQ test to be conducted as per the schedule attached herewith.

The syllabus for the test can be decided by the respective teachers so that it can give ample chance to create 50 questions. Teachers can restrict the syllabus which will be covered till 15th of July 2020. The back portion can be either from 19th June 2020 onwards or few topics covered in the month of April.

The syllabus for all the subjects should be conveyed to the students clearly on 13-07-2020 during the live session. Teachers should emphasis the importance of the MCQ test in positive way so that the maximum number of students should take part in the test.

The learning outcome of the students can be measured only through proper evaluation, hence it is very much essential to conduct the test.

The last date for the submission of question paper is 15-07-2020 through e-mail to the confidential mail-id of our school.

ONLINE MCQ TEST

Greetings to all my Dear Students!

Hope you all are actively participating in Distance Education Programme of AECS-3, Rawatbhata. We are continuously uploading the chapters/lessons to be learned in the form of modules and online interactive classes are also being arranged regularly for teaching the topics/modules. It has been found that good numbers of students are taking part in such interactive classes regularly. My heartfelt congratulations to the students who are taking special interest in learning and utilizing the lock down period effectively. **My special thanks and wishes to my beloved teachers, they are really taking extra efforts to conduct the classes through online and also interacting regularly to make the students to complete their work.**

Still it is a matter of concern about the students who are not attending the online interactive classes, in spite of repeated instructions few students are not attending those classes and not completing the work assigned by the teachers. It is expected that every student should read the handout/ppt file, read the lesson in text book, listen to the audio and then to complete the worksheet of each module. But unfortunately the seriousness among few students of classes X and XII are missing. It is our earnest appeal to all my dear students to utilize the lockdown period to learn the lessons of all the subjects.

In continuation of our online Distance Education Programme, We are conducting online MCQ test for the students of classes X and XII. The Procedure for taking online MCQ test is given below

1. The test will be conducted completely online, hence the result will be known to the students immediately just after completing the paper.
2. Test can be taken through classmarker.com with the help of the credentials, unique for each subject, which will be provided by the school.
3. Each student will be given a User Id. and Password for logging into the website and then they can take the tests available for them. User Id and Password is confidential, hence it should not be shared with any other.
4. Online MCQ Tests will be made available for a specific time period on a particular day, hence students are advised to take tests as per the schedule without fail. A student can attempt the test only once for every subject on a particular date. Test cannot be resumed after sometime, hence it must be completed at one sitting only.
5. Each subject will have a separate test for 80/90/100 minutes which will have 50 questions at random order.
6. The marks of top three students will be published in the concerned WhatsApp group for every subject. After one cycle for all the subjects, the name of the top 5 students will be published.
7. It is mandatory for all the students to appear for the online MCQ test as these marks will be used for internal assessment/periodic test purpose.

Best wishes
