

ATOMIC ENERGY CENTRAL SCHOOL NO.3, RAWATBHATA

Subject – Maths

Confidence Test (February- 2020)

Class: V

Date: _____

Time: 1:30 Hours

Name: _____

Roll No.: _____

MM – 40 / MO _____

Invigilator's Sign: _____ **Examiner's Sign:** _____

=====

SECTION - A KNOWLEDGE (20 MARKS)

A-I. Fill in the blanks.

[1 x 10 =10]

1. _____ is measured in cubic units.
2. Siyatravels from Kanyakumari to Kashmir. She travels towards ---
3. From the top view of a bridge we can make out its _____.
4. If 3 lemons push up 15ml of water, volume of each lemon is _____.
5. $9000\text{m} \times 0.1\text{m} =$ _____.
6. The amount of surface enclosed by a plane figure is called its _____
7. The most appropriate unit for measuring the area of your school play ground is _____
8. The lines used to represent the data is called _____
9. Rupee 0.5 = _____
10. If 6cm on the map represents 30km on the ground , then the given scale:
1cm = _____

A-II Do as directed.

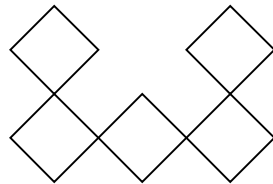

(2X5=10)

1. The favourite pets of some children are given below.

Pets	Tally marks	No. of children
Dog	☒ ☒ ☐	
Cat	☐	
Rabbit	☒ ☐ ☐	
Parrot	☒ ☐	

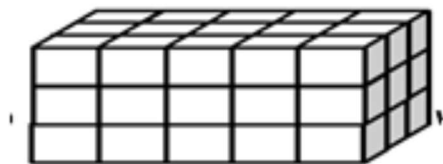

- (i) Complete the above table.
- (ii) Which is the most favourite pet? _____

2. Find the area and perimeter and area of the figure. (Square is of size 1 cm.)

Perimeter = _____ Area = _____

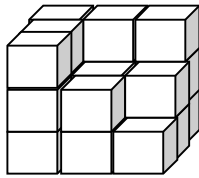

3. Look at the picture.

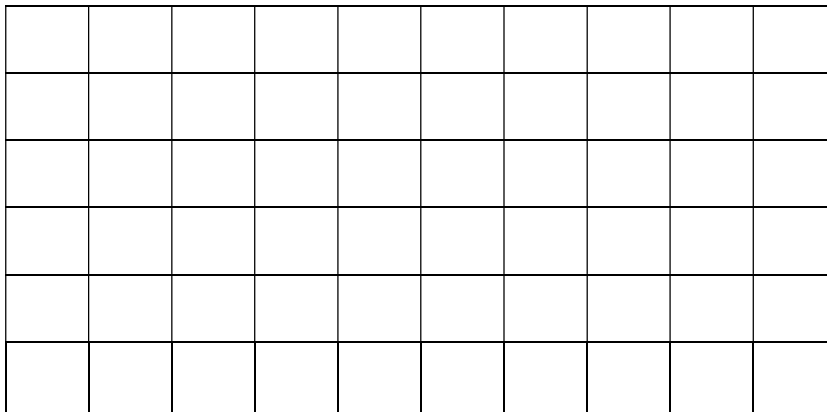

i) How many cubes can be arranged in one layer? _____

ii) There are _____ layers of _____ cubes.

4. Draw top and side views of this

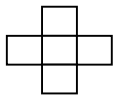

5. Draw a rectangle and a square of 16 cm perimeter each in the given square grid and colour them. if side of each square is 1 cm, find the area of square and rectangle

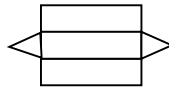

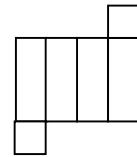

Area of square = _____ Area of rectangle = _____

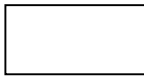

SECTION - B UNDERSTANDING (20 MARKS)

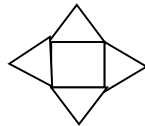

B-I Draw the boxes into which these shapes will fold. (6 X 1 = 6)

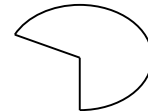

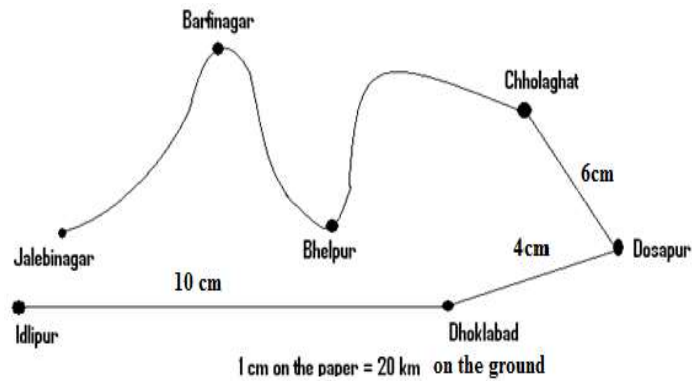

B-II Find the following.

(2x5=10)

1. Arushi makes a new year card which is 11cm wide and its area is 209sq.cm.
How long is the card is? _____

If she put glitter tap on its boundary, how much long tape will she need? _____

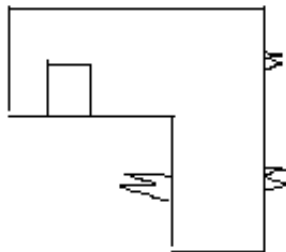

2. Read the map and answer the question.

i) The distance between Idlipur and Dhoklabad is 10 cm on the paper, how many kilometres will you have to travel to reach Dhoklabad from Idlipur?

ii) How far is Chholaghat from Idlipur?

3. Draw the deep drawing of the following floor map.

4. A teacher recorded that the children who help their parents in different houses hold work.

House Work	No. of children
Going to market	15
Sweeping the room	20
Watering the plants	25
Washing clothes	15
Total Children	

- i) Watering the plant is _____ of the total students.
- ii) Going to the market, sweeping the room and washing clothes together is _____ of the total number of children.
5. Arjun is a worker in Rajasthan if he works for 6 weeks in the farm, how much will he earn ? (One day wages = Rs 78)

How much money will he earn in a month?

B-III Read the table and answer the following questions. (4)

City Temperature at 3:00 a.m.

Chennai	30.2°C
Mumbai	27.8°C
Delhi	29.5°C
Kolkata	31.5°C
Jaipur	24.6°C
Hyderabad	30.2°C

- i) The difference in temperature between Kolkata and Delhi is _____.
- ii) The temperatures of Chennai and Hyderabad are _____.
- iii) The lowest temperature was recorded at _____ while the highest temperature was recorded at _____.

SECTION – C ABILITY TO COMPUTE (20 MARKS)

C-I **Fill in the blanks.** (6X 1 =6)

1. $50/100 =$ _____ (in decimal)
2. Area of a square of side 2cm = _____ sq.cm
3. Volume of a cube of 3cm = _____ cube cm.
4. $510 \times 20 =$ _____
5. $92.25 + 100 =$ _____
6. If we double the side of the square , its area will increase _____ times.

C-II Solve the following. (2x5=100)

1. Divide the following.

$$1024 \div 32$$

$$532800 \div 9$$

2. Multiply the following.

$$65100 \times 54$$

$$1231 \times 19$$

3. Ashi took loan of Rs 30252 to buy a scooter. She has to pay Rs.2700 every month for one year. How much money does she pay in all?

How much more money did she pay the Bank?

4. A carton is 50 cm long, 40 cm broad and 30 cm high. How many cubical tea packet of side 10 cm can be put in the carton?

5. The weight of a 5 rupee coin is 6 g. How many coins are there if it weigh

(a) 4 kg 260 g

(b) 30 kg

C-III Look at the table and find the answers.

(4)

Currency	Changed into Indian Rupees
Euro	Rs 54.25
Pound	Rs 67.50
US dollar	Rs 44.75
Rupee (SL)	Rs 0.35
Dirham	Rs 12.75
Rupee Nepal	Rs 0.66

i) How many Indian rupees do we get from 45 Euro?

ii) Rubia's father live in USA. He sent 20 US dollar to buy gift for her birthday. She bought a wrist watch for Rs 225.50.
How much money did she get back.

iii) Mohini live in Sri Lanka. She sent 500 rupees (SL) for her parents.
How much Indian rupee does her parents get?

- iv) Neetu has Rs 447.50 She wants to change it into US dollar. How many US dollar does she get.

SECTION – D APPLICATION (20 MARKS)

D-I Fill in the blanks.

1. A flag is 30 cm long. If its breadth is half of its length. The area of the flag is _____
2. $\frac{1}{5}$ of 2500 = _____
3. The cost of a pen is Rs 20. The cost of 50 such pens are _____
4. The volume of a cube is 1 cube metre. Its side is _____ metre.
5. If one two-Rupee coin is 6grams. _____ two –Rupee coins may be there in 600grams.
6. All the faces of a _____ are square in shape.

D-II Find the following.

(2 X 5=10)

1. Read the chart and answer the question

The number of rabbits grown in India are given below.

Find the number of rabbits in 5th year and 6th year.

Time	Number of rabbits
start	10
1 year	18
2 year	32
3year	56
4 year	108
5 year	–
6 year	–

2. The weight 100 five -rupee coin is 675 gram. What is the weight of 800 such coins?

3. Ravi bought a battery. He read on it 'Life 2500 hours'. He uses the battery day and night. How many will day the battery run?

4. Find the volume of the following cuboid.

(a) Length = 15 cm Breadth = 12 cm Height = 8 cm

(b) Length = 30 cm Breadth = 25 cm Height = 15 cm

5. 1 Rajesh's mother took a loan and has to pay Rs 68000 per month. Rajesh has to help his mother. He started to look after 75 buffaloes and earns

Rs 25 each day for each buffalo?

(a) How much does he earn every day?

(b) How much does he earn in every month?

(c) Is it enough to pay the loan?

D-III Read the story and solve the problems. (4)

The list of food items needed by one person each day is given

Rice – 70 g Flour – 90 g Pulses – $\frac{1}{4}$ of the weight of rice and flour

Sugar -60g Oil -50g Milk Powder -65g

Tea - 15g Salt - 10g Dried Onion – 30g Dried tomato – 30g

If fresh onion or tomato is dried, 1kg fresh onion or tomato becomes 100g.

Now answer the following.

(a) How much the following item will need for 8 days?

(i) Rice _____ (ii) flour _____

(iii) Pulses _____ (iv) Dried tomato _____

(b) Find the total weight of the food items needed for 8 days in each person's bag?

(c) How much fresh tomato should be dried for 8 days for 20 people?
